Insights

#1 IN SCRATCH RESISTANCE*

Diamond 10® Technology creates a powerful layer of scratch protection – a strong, protective system infused with cultured diamonds to form the hardest traffic-and-wear resistant barrier that also protects the wood from soils and stains.

APPALACHIAN RIDGE™ | Snowfall SAKAR59L401X, Natural Attraction SAKAR59L402X, River Canyon SAKAR59L403X, Spice Run SAKAR59L404X, Brush Mountain SAKAR59L405X, Wilderness Trail SAKAR59L406X, Beartown SAKAR59L407X, Cove Forest SAKAR59L408X, Great Smoky SAKAR59L409X, Raven Cliff SAKAR59L410X

*Based on an industry standard scratch test modified to be more rigorous, comparing hardwood with Diamond 10® Technology to leading hardwood competitors with finishes claiming to be scratch resistant. Dent resistance was not a part of this test.

TAKING NATURAL WARMTH TO NEW HEIGHTS

Scraped and brushed artisan effects are harmonized with gentle sanding to create a refined, tactile canvas – brought to life with carefully selected stains and color washes. This fusion of soft focus texture and unparalleled, multi-tonal colors creates a floor with subtlety and sophistication.
