Curated Collections with Style and Beauty

2017

The image displays a collection of wood plank samples arranged in three vertical columns. The top section features a dark, semi-transparent horizontal band with the text 'Woodland Relics' in a white, cursive font. Below this, the left column shows light-colored planks with subtle textures. The middle column features a mix of planks, including a prominent one with a dark, distressed, and weathered appearance. The right column consists of darker, rich brown planks with prominent wood grain patterns.

Woodland Relics

NATURALLY INSPIRED. ARTFULLY CURATED.

The way the sun's rays gently fade the planks of a whitewashed barn. Or the salty surf breeze enhances the natural texture of a favorite beach chair. Exposure to natural elements reveals the unique depth and beauty of organic wood. Woodland Relics™ hardwood captures the essence of reclaimed, weathered wood – as random and varied as if crafted by nature. Multiple species, widths, textures and tones combine to create something special and unexpected.

SEA SAND SKY

The best of many worlds in hardwood design – 3 species and 5 unique surface textures in a random width installation. Each floor is like a handcrafted work of art – every box reveals something incredible and unique.
